

Sustainability Committee - Bylaws Update

Sustainability shall consist of up to 5 Board members and up to 5 Stakeholders. The committee shall choose a Board Member to Chair the committee. The committee is responsible for making Highland Park a more sustainable community through implementing city plans and goals related to environmental sustainability and justice, ensuring new development adheres to City of Los Angeles green building code (CALGreen), and applying the goals and objectives of the conservation element of Los Angeles General Plan. The committee plans education, engagement, and collaboration between public officials, community organizations, and stakeholders in order to accomplish its goals.
